AGENDA ITEM Worksession with Planning Commission and Economic Development Advisory Board regarding the Community Development/Comprehensive Plan.

BACKGROUND The City's current Comprehensive Plan was adopted in 1982. The new Community Development/Comprehensive plan is currently being developed by Confluence. This plan will provide a guide for the future growth of the City through 2050 and beyond. It will analyze existing conditions and develop strategies to encourage coordinated development, such as identifying areas to plan for future infrastructure, updating zoning designations, and other strategies to place the City in the best position for future economic development success. An important element in the development of this plan is feedback from the City Commission, Planning Commission and Economic Development Advisory Board which will be facilitated by Confluence during the worksession.
